Japan Living In Glass House,
As Even Now She Bars
Landowners.

SHE'LL PROBABLY SHUN EXPO

London, May 17.—"Should war break out, the sympathies of Australia, New Zealand and Western Canada would be violently on the side of the United States," says the Pall Mall Gazette, in discussing the Californian alien land ownership controversy.

This newspaper considers that it would be a grave mistake to underestimate the chances of a conflict between the United States and Japan. It says:

"The opinion that the Japanese will never go to war to enforce treaty rights in California is one of those dangerous generalities which lead nations blindfolded to the brink of a pit."

The Pall Mall Gazette expresses the opinion that there are several reasons why Japan may be desirous of forcing the issue at the present moment. The most obvious of these is the pending opening of the Panama Canal, while a more remote one is connected with the condition of her internal politics.

The article continues: "The point at issue—the exclusion of Asiatics from permanent settlement—touches the British Empire very nearly."

A dispatch from Berlin says that "The excitement in Japan over the question of California alien-land ownership legislation is well founded and comprehensible," according to an analysis of the Japanese-American situation by the Tokio correspondent of the Welt Korrespondenz Agency, printed to-day in the semi-official Norddeutsche Allgemeine Zeitung.

The Japanese, however, he says, are scarcely in a position to place difficulties in the way of California's land policy.

The correspondent declares that the Japanese are living in a glass house, because foreigners even now are barred from owning land in Japan—a feature of the situation which hitherto has been left unnoticed in Germany.

The writer expresses doubt whether the Japanese Government will favor abstention from the Panama Pacific Exposition at San Francisco, which he regards as Japan's only weapon against the United States.

HIS BALL TEAM LOST— DIED OF BROKEN HEART

St. Paul, Minn., May 17.—"Had I pitched, my school would have won the pennant, but it's too late now; we've lost—"

Willie Lieder, 14, champion pitcher of St. Paul grade schools, sobbed these words, buried his face in bed clothing and died of a broken heart.

Willie attended class at the Baker school Wednesday. That afternoon he won his third consecutive victory, pitching a two-hit, no-run game. The Thursday's battle was to decide his school's pennant chances.

He worried, causing a headache, and was detained at home. The new pitcher lost the game.

When the principal and comrades called on Willie yesterday he still was confined to his bed with a headache.

"What's the score?" he cried. They told him, and a moment later he was dead. Physicians say death was due to a broken heart.

Playmates placed Willie's baseball suit over the body.

TOBACCO PLANT BEDS STILL BEING SCRAPED

Princeton, Ky., May 17.—Nineteen plant beds were destroyed in the Farmersville section, seven miles north of Princeton, last night. The report of a general destruction of plant beds in the Bucksport section, eight miles east of Princeton,

Thursday night, also reached Princeton this morning. These depredations have created much excitement and anxiety, which, added to the great destruction of plant beds in southern section of Caldwell county the last few weeks, eliminates the prospect of anything like a third of an average crop of tobacco this year. Various modes of plant-bed destruction have been resorted to since the depredations were begun. At first the beds were sown in redtop grass seed, then beds were salted and now they are being scraped.

LOVABLE YOUNG WOMAN DIES AT CENTRAL CITY

Central City, Ky., May 16.—Miss Belle Vick, daughter of Mr. John M. Vick, died at her home in this city after a two weeks' illness of stomach trouble and complications. This death is one of the saddest that has occurred in Central City in years. A most lovable young girl just budding into young womanhood, her death has been quite a shock to the entire county. At the death of her mother, which occurred five years ago, she took her mother's place, and perfectly has she filled it, being sister, friend and mother to each and every other member of the family.

Her funeral was conducted Thursday afternoon at the Baptist church by her pastor, Rev. W. B. Wright, of the Christian church, of which latter church she was a prominent and consistent member from childhood. Interment was at Fairmount cemetery, the remains being followed to the grave by a host of friends, paying their respects to this splendid, good girl. She leaves her father, John M. Vick; brothers, Fred, John and Robert, and sisters, Miss Eula and Mrs. J. L. Jenkins.

HER NECK WAS BROKEN IN RUNAWAY; BABY SAFE

Marion, Ky., May 18.—While on her way from her home, near Crayne, in this county, to Piney Fork church this afternoon, Mrs. Edgar Woodall was thrown from a buggy and almost instantly killed. Her husband, Edward Woodall, and their 1-year-old baby were also in the buggy when the accident occurred. They were driving along the road when the horse became frightened at some boys playing by the roadside and ran off, overturning the buggy and throwing the three occupants out on a rough and rocky road, breaking Mrs. Woodall's neck.

Mr. Woodall also received injuries from which the doctors say he will not recover. The child escaped unhurt.

THE ACT WAS INVALID IS COURT'S DECISION

Frankfort, Ky., May 16.—In order for an act of the Legislature to be valid, the Speaker of the House and the President of the Senate must sign the bill in the presence of the members, thus complying with the provisions of Section 56 of the Constitution. This decision was handed down to-day by the Appellate Court in the case of Barksdale Hamlett, Superintendent of Public Instruction, against Jas. B. McCreary, Governor, affirming the judgment of the Franklin Circuit Court.

The last General Assembly passed an act providing for an appropriation to pay the bonds given by the State officials and owing to the rush in the closing hours the bill was not signed by Lieutenant Governor McDermott, Hamlett mandamus Governor McCreary to compel him to sign the bill and Auditor Bosworth to compel him to issue a warrant for \$125 for premium on his surety bond. The Court holds that as the bill was not signed by the Lieutenant Governor, it is not valid.

JOHN MITCHELL IS THE LABOR COMMISSIONER

Albany, N. Y., May 17.—John Mitchell, former president of the United Mine Workers of America, was appointed to-day by Governor Sulzer as State Labor Commissioner, at a salary of \$8,000 a year. The appointment was made possible by the resignation of John Williams, for many years head of the department. Mitchell immediately announced the appointment of Williams as first deputy.

Rains reported in various sections of Kentucky are pronounced the "salvation" of growing crops.

JURY CONVICTS THAW'S LAWYER

Anhut Found Guilty and
Faces Prison Term.

TRIED TO BRIBE PRISON CHIEF

For Thaw's Freedom—Latter
Says He Gave Defendant
\$25,000.

MAXIMUM PENALTY TEN YEARS

New York, May 17.—John N. Anhut was convicted of attempted bribery to-night by the jury before which he had been on trial in connection with an attempt to free Harry K. Thaw from Matteawan by alleged illegal means. The young lawyer will be sentenced Tuesday by Supreme Court Justice Seabury. The jury, which retired shortly before 4 o'clock, deliberated less than two hours and a half. They found that Anhut was guilty of offering Dr. John W. Russell, former head of the Matteawan Hospital, \$20,000 for the release of Stanford White's slayer, as Dr. Russell had testified.

Thaw had given Anhut \$25,000 in stocks and cash, to be used to get him free. Anhut's defense was that the money was a contingent fee only, to be returned in full if Thaw did not have his liberty by July 1 next, and was to be used for legal measures to obtain his client's release through having him declared sane by alienists who had not figured in Thaw's recurrent efforts to leave Matteawan.

Following the verdict, Anhut was remanded to the Tombs. Anhut, who had expected to be acquitted, stood gasping at the railing as the verdict of guilty was pronounced. Then his pedigree was given and he was led across the Bridge of Sighs to the Tombs.

He is 29 years old and was born in Michigan, where he was once a State Senator. He faces a maximum penalty of ten years in prison and a fine of \$500. In summing up, Assistant District Attorney DeFord for the prosecution, rehearsed Thaw's unsuccessful attempts to get his freedom and declared that in the Anhut case Thaw in desperation sought illegal means to gain an end he could not accomplish legally.

Thaw's insanity was dwelt upon by Arthur C. Palmer in summing up for Anhut. He asked the jury to disregard Thaw's testimony in view of his mental condition. He held that Anhut was a victim of circumstances brought about by Thaw and Dr. Russell and had acted honestly as Thaw's counsel.

In charging the jury, however, the court said Thaw's testimony should be given careful consideration. Thaw said on the stand that he sent Anhut \$25,000 when the defendant told him he had talked with Dr. Russell and that the physician had promised to see that Thaw was released. Dr. Russell said that Anhut tried to bribe him with a \$20,000 offer, but that he replied he would not release Thaw for money, for to do so would be to sacrifice position and honor.

WATERS OF THE PACIFIC LET INTO PANAMA CANAL

Panama, May 18.—The waters of the Pacific Ocean were to-day let into the Panama Canal. A giant blast, composed of 22,750 pounds of dynamite, was shot, demolishing the dyke to the south of the Miraflores locks and allowing the water to flow into an extensive section in which excavations have practically been completed.

The blast was successful in every way and the vibration was felt in Panama City as though there had been a slight earthquake.

Davies Circuit Court.

Judge Birkhead will convene the criminal court in Owensboro Monday, May 26, for a term of three weeks. There are a large number of cases held over to the grand jury which will be disposed of by that body. Most of these defendants are in jail, while others are on bond.

The docket is about the usual size, with a number of important prosecutions pending.

WAR SHIPS AND ARMY AT STAND

Pending Alien Land Bill
Negotiations.

A PLAN TO AVERT ALARMS

Mikado's Government is Ex-
pected to Re-Enforce Its
Protest on Measure.

WILSON IS USING DIPLOMACY

Washington, May 16.—President Wilson has determined that no war ships or troops shall be moved or anything resembling a military or naval demonstration carried on by the United States while diplomatic negotiations with Japan over the Californian alien land legislation are in progress, so that no alarming interpretation can be placed on even the ordinary maneuvers of the army and navy.

Further representations from the Japanese government in support of its protest against the Californian land legislation were forecast to-day. Viscount Chinda, after being notified of Governor Johnson's intention to sign the land act, called at the State Department twice to inquire when the Governor probably would act.

After the Ambassador's visit, Acting Secretary Moore went to the White House and passed half an hour in discussing the situation with President Wilson. It is understood Mr. Moore was able to throw little light on Governor Johnson's intentions when he saw the Ambassador later.

Expectations are that Japan will not offer anything new until the act is signed.

President Wilson discussed with Mr. Moore the course to be pursued in framing a reply to Japan's original protest. This subject will come before the cabinet meeting to-morrow with Secretary Bryan again in his chair, but the answer may not be immediate, unless the Japanese government is insistent, as the President is disposed to proceed with deliberation as diplomatic usage will permit.

It developed that the Japanese government had not suggested The Hague tribunal as a means of settling the issue, whence the conclusion was drawn that Japan did not regard the resources of diplomacy exhausted to a point where arbitration was the only resort or where a rupture of diplomatic relations was threatened.

Administration officials believe Japan is aware of two important facts:

1. That the United States Government has honestly exerted itself to the extent of its resources to prevent the enactment of the legislation.
2. That in making treaties with the United States a nation is expected to have in mind the functions of National and State governments under the American dual system and not to expect the administration to pass beyond constitutional limitations in its dealing with the States.

YOUNG BUTLER COUNTY MAN COMMITS SUICIDE

Moreantown, Ky., May 16.—Arthur Mason was found lying on the back porch of his home, in the Dunbar neighborhood, in a dying condition as a result of a gunshot wound inflicted by his own hands.

Mr. Mason was a young man, married and highly regarded by all who knew him. It is not known just what led him to this rash act, but it is said he had been despondent of late. He has a twin brother who is being closely watched, as he threatened to kill himself if his brother died.

MUST OBTAIN SOFT DRINK LICENSE IN EACH COUNTY

Frankfort, Ky., May 17.—Blanket licenses for concessions in Kentucky are no more. Carnival and fair companies must pay the regular license for every concession, and to-day the Auditor's office notified the Van Noy News Company, operating over the lines of the Illinois Central, that it must secure a soft drink license in every county

through which the road passes and in which it sells soft drinks. The company inquired whether it would be possible to secure a blanket license to cover sales on trains in every county.

BABY BURNED TO DEATH WHILE MOTHER WAS AWAY

The infant of Mr. and Mrs. Celestine Ward, near Whitesville, was burned to death Saturday morning when the house in which they lived caught fire and burned to the ground, a total loss. Mrs. Ward and her two-year-old daughter left about 9 o'clock and went to a neighbor's house not so very far away, leaving the baby asleep in its crib in the kitchen. Mr. Ward was at work in a field, and it is not known how the house caught on fire, although it is supposed that fire fell from the stove and set fire to the floor.

The first known of the blaze was when Mrs. Ward noticed the flames bursting through the roof. She ran quickly and carried the crib from the burning dwelling and extinguished the flames, but the baby, frightfully burned, was dead. The remains were buried Saturday afternoon in the Catholic cemetery at Whitesville.

WILSON SEEMS TO BE AN ENEMY OF RACE SUICIDE

Washington, May 15.—That Woodrow Wilson is an enemy of race suicide and believes in passing out offices as a reward of merit to men who have large progenies, was demonstrated to-day when he appointed former Congressman J. M. Richardson, postmaster at Glasgow, Ky. Mr. Richardson is the fond father of eleven little Richardsons.

A short time ago the President appointed Ben Marshall, the father of thirteen children, Internal Revenue Collector for the Lexington, Ky., district. Exactly two dozen children are recognized by these two appointments. If there is any other Kentuckian with a rattling big family who wants a job, now is his time to step forward.

WOODSON AND HAGER IN AN EDITORIAL TUSSELE

Owensboro, Ky., May 17.—Still the battle rages. The lie has been passed, yet two Democratic editors warring in this little town have resorted to nothing more than the use of their editorial columns. "Back to Our Mutton," was the caption used by Urey Woodson, editor of the Messenger, in referring to his "esteemed contemporary" Judge S. W. Hager, editor of the Inquirer. In this editorial Woodson accuses Hager of "duplicitous and falsehood."

Comes the following in reply from Judge Hager:

"Woodson is still floundering around trying to divert the minds of the people from the real issue—that of municipal ownership—which so materially affects the interests of Owensboro, but his efforts are not only futile but pathetic. He may rave and cavort, tear his flowing locks, and beat the tom-tom to his little heart's content, but he is deceiving no one but himself. The people are wise to his purpose, and men, women and children, from one end of the city to the other, are laughing at the pitiable spectacle he is making of himself."

This brief note is the Messenger's latest:

"Mr. Woodson was called to New York yesterday on an imperative matter of business. He will attend to the Hager person when he returns in a few days."

Confederate Reunion.

Fifty years after the battle at Chattanooga the Confederate veterans will hold their annual reunion on the scene of one of the bloodiest battles of the Civil War on May 27, 28 and 29, practically every veteran of the Civil War who took part in the strife for the Southern cause and is still among the survivors, will take part in the reunion. The line grows thinner each year, and where hundreds of old vets formerly set out for the scene of their reunions, this year only a small remnant is left to form the band.

WORLD MUST BE TAUGHT LESSON

Of Equal Treatment For
Alien Peoples.

THIS IS JAPANESE SENTIMENT

Want To Make the California
Case a Precedent In
the Matter.

STOCKING UP BATTLE SHIPS

Tokyo, May 19.—While war talk is being denounced here as ridiculous, and only calculated to embarrass both America and Japan, it is conceded that the people feel that the world must be taught the necessity of equal treatment of the whites and nonwhites.

Faith in the Americans to see that justice is done the Japanese is the dominating note in the discussion of the California alien land-ownership legislation.

It is conceded, however, that failure on the part of the Americans to respond to the Japanese appeal for a discontinuance of the alleged discrimination would be liable to lead to some estrangement of the peoples.

The Japanese public generally is convinced that the land bill is a racial and not an economic measure, and hence a blow to national pride.

The Tokyo newspapers are loud in their praise of President Wilson's zeal in his endeavors to preserve the traditional friendship, and they recognize the difficulties which confront the President of the United States in the confusing conflict between State and Federal rights.

The Nichi Nichi is of the opinion that the question as to whether the Washington Government can procure for the Japanese equal rights depends upon the strength of Japanese diplomacy, and urges the Government to take a firm attitude.

A joint celebration of the Japanese and American peace societies to-day was attended by 1,000 Japanese. Speeches were made by Count Okuma, former Minister of Foreign Affairs, Baron Yoshiro Sakatani, Mayor of Tokyo, and Tsunejiro Miyaoka, who was Councillor of the Japanese Embassy at Washington in 1906. All the speakers endeavored to clarify the situation and derided jingoism.

Count Okuma was loudly applauded when he compared the attitude of the California legislators with the anti-foreign movement in Japan half a century ago, which he looked upon as an abased race prejudice.

"We despised the foreigners," he said, "because they looked different; we did not consider them human beings. Japan finally saw the falsity of its position and became an admirer of everything Western. The same causes underlie the California question, but like the Japanese, the Californians will see the folly of their position and truth and justice will triumph."

"At some future day the Californians will laugh at their fathers and grandfathers for driving off the Japanese, just as we laugh now at the anti-foreign absurdities of the Samurai."

Battle Ships Prepared.

Norfolk, Va., May 19.—That Uncle Sam intends to be ready in case of war is shown by orders issued here to prepare warships for service as soon as possible. The battle ship Vermont is ordered to be ready for service by June 7, and the Louisiana is to sail in a week.

The Louisiana is taking on a supply of provisions and ammunition sufficient to last six months. The Vermont will be similarly equipped when she starts to sea. Several torpedo boats also are being made ready for service.

The auxiliary Mays, which will convey five submarines to Cuba, also is taking on board a large quantity of provisions and ammunition.

The ultimate destination of the submarines is reported to be the Pacific Coast. The little fighters will go to Panama from Cuba, reports say, and will be taken across the isthmus by rail.

PACOLET MANUFACTURING CO.,
BROWN SHEETINGS AND DRILLS.

Spartanburg, S. C., May 10, 1912.

Peaslee-Gaulbert Co.,

Louisville, Ky.

Gentlemen:

After completing our village at New Holland, Ga., we experimented with some half dozen various brands of paint by dividing our village up into sections of ten houses each, and painting each ten with a different brand.

On one section of ten houses we used Lead and Oil, the other five sections we used paints mostly used in this section, and considered to be the leading brands.

After eight years we find that the ten cottages covered with "**MASTIC PAINT**" are in better condition and stood the test better than any of the others, even including Lead and Oil. Will say further that the houses were all of the same architecture, weather-boarded with long leaf yellow pine of the same grade, having same exposure to the sun, that is, none of them were partially protected by shade trees, but fully exposed.

We are fully pleased with the results of the "**MASTIC PAINT**" and can heartily recommend same to anyone who is a buyer.

Yours truly,

JOHNSON SAYS HE WILL SIGN BILL

Sends Long Telegram To Secretary Bryan.

SAYS NO OFFENSE INTENDED

Future Action Of National Administration Yet In Doubt.

PROBLEM IS VERY GRAVE ONE

Sacramento, Cal., May 15.—Expressing determination to sign the alien land bill, recently passed by the Legislature, Gov. Johnson today telegraphed Secretary Bryan a long explanation of the action taken by the Legislature. The message was in answer to a request by the administration that the bill be vetoed.

The Governor stated in his telegram that he took it that the administration's last message embodied what Secretary Bryan said the administration wished to set forth before Gov. Johnson's final action. He refers to the alien problem as a very grave one for the West and little understood in the East and one that in late years has become so acute as to render an attempted solution imperative. He declares the bill is drawn in conformity with the existing treaties with Japan.

"We offer no offense," continues the message. "We make no discrimination. The offense and discrimination is contained, it is claimed, in the use of the words, 'eligible to citizenship' and in making the distinction between those eligible and those not."

"The laws of the United States," says the message, "long since, without demur from any nation, termed who were and who were not eligible to citizenship. It sets forth that three States have in the past enacted laws similar to this one without objection or protest."

"We insist," continues the message, "that justly no offense can be taken by any nation to this law. You have suggested to me de-

lay. My province is to approve or disapprove the law as presented. It is with the highest respect for yourself and the President that I feel my duty to my State compels me to approve the action of the Legislature."

The only contingency that might arise now to check the operation of the anti-alien land law, which, after the Governor's signature becomes effective August 10, is the threatened referendum petition which Theo. A. Bell, the Democratic leader, said he would circulate.

State Department Must Decide.

Washington, May 15.—With Gov. Johnson's announcement today that he would sign the California anti-alien land bill in spite of the national administration's appeal, it becomes necessary for the State department to decide whether it will negotiate with the Japanese government on a basis defending California's right to so enact, or whether it shall concede that the act violates the spirit, if not the letter of the treaty with Japan, and attempt to find means of nullifying it. The President's message to Gov. Johnson, claiming the legislation is discriminatory, in a way upholds Japan's contention and would render the State department's position embarrassing should it decide to champion California's right.

It is hoped here that the status of a citizen of each country in the land of the other can be satisfactorily adjusted through the negotiation of a new treaty.

SOME GOOD BUSINESS IDEAS OF MARRIAGE

In the June Woman's Home Companion a writer, on the subject of marriage, makes the following proposition:

"Most girls go into marriage very little prepared for it. We prepare, it would seem, for every profession in which we hope to win success, except the most important one of all. We would not dare to take a responsible position in a business office without either knowledge or training to fit us for our task; yet, with neither, we assume the gravest responsibilities that a woman can assume, and confidently expect success and happiness. The thing is without parallel. I think, and stands by itself in folly and lack of common sense."

"And, having persuaded ourselves that our happiness will be secure, despite any unfitness and

inadequacy of ours, how are we shaken and amazed and cast down and put into despair when that happiness fails and we sit before the weedy harvests of our mistakes. In all other matters we may be reasonable enough, and few of us but expect, in the general events and consequences of life, to gather figs only from fig trees and to find thorns and thistles only in their accustomed places; but in this event the natural laws of growth and consequence and all order and likelihood are to be set aside in our favor and we are to be permitted, we assume, to gather pomegranates from the most readily grown lettuce, and the choicest foreign fruits from the thorny plants of our most commonplace ignorances and follies."

HER PITIFUL APPEAL—PRAYER WELL ANSWERED

Triplets, all boys, were born yesterday to Mrs. Louis Isler, of 729 Prospect street, Brooklyn, in the burning of whose home, at 51 Rogers avenue, on January 21, last year, she and her husband lost all of their four children.

Isler, who is a prosperous kosher butcher, called Dr. Harold Rabinowitz, of 64 McKibben street, to his new home yesterday afternoon and soon the physician ushered three little boys into the world. Each weighed six pounds and each was healthy and possessed of lusty lungs. Mrs. Isler was reported as doing well last night.

When the Isler home burned last year, through the explosion of a kerosene lamp, their four children were asleep. Two were dead when found and the other two died soon afterward. Mrs. Isler suffered from mental shock for several weeks and seemed to be inconsolable. All of their household goods were destroyed.

After a few weeks they established a new home in Prospect street and recently Mrs. Isler has been very happy. Her neighbors said she had prayed every day, many times every day, for children to take the places of those she lost. She told the physician today that she knew her prayers had been answered. Three of the children killed in the fire were boys. Three boys came yesterday.

Isler said that no mother in his family or in that of his wife's had ever had triplets or even twins before. —[New York Herald.

A FREE COURSE IN AGRICULTURE

Is Offered To the People Of the State.

RUNS FROM JUNE 10 TO AUG. 1

Splendid Chance for Students To Get Fine Knowledge Of Farming.

WORK OF THE HIGHEST VALUE

During the summer, from June 10 to the first of August, the State University at Lexington will be opened for a free course in the science of agriculture, under the auspices of the Commissioner of Agriculture. There will be no charge of any character for the course, but the pupil—young or old—will be given every advantage to learn practical details of right farming. The total expenses for the course should run between twenty and forty dollars, depending on the economy with which the student lives.

In an effort to arouse more general interest in scientific farming the State experiment station has mailed to newspapers throughout the State the following circular:

During the approaching summer the College of Agriculture of Kentucky State University will offer special courses in agriculture in conjunction with the regular summer courses of other departments.

Teachers should be especially interested in this work, as it will deal with the fundamental principles of the subject treated and will offer many good suggestions for the conduct of agricultural teaching in the common and high schools.

Many of the States have laws providing for the teaching of agriculture in the schools and it is probably only a matter of a little time until Kentucky will have a similar law. Many of the most progressive schools of the State are already teaching agriculture. This serves to make the school infinitely more useful and popular in the community and marks the teacher as one of the progressive kind, far

more valuable than the average. The school that best serves the community interests fulfils its mission best and in the vast majority of Kentucky communities, agriculture is the chief interest.

The facilities of the Kentucky College for the teaching of agriculture are the very best and the wide-awake teacher or farmer should not miss the opportunity to attend.

The summer season offers advantages for field work among the growing crops that cannot be had during the winter.

The work will be so arranged that work in other departments can be carried on at the same time.

Beginning June 23d and continuing four days, a special series of lectures and laboratory work will be arranged for ministers and also for county school superintendents.

The summer courses will include soils and crops, dairying, horticulture, animal husbandry, poultry, entomology, botany, bacteriology, farm management and home economics. The regular faculty will conduct the work and no pains will be spared to make the work of the highest value.

The courses will begin Tuesday, June 10th, and will extend to August 1st.

On arrival in Lexington, students may report to the office of the extension division at the Agricultural College where a list of convenient boarding places with reasonable rate is kept. Students should be on hand at the opening, as it is impossible to make up work lost by tardiness. No fees for agriculture will be charged.

For further information, address, T. R. Bryant, Supt. Extension Division, Experiment Station, Lexington, Ky.

THE DAYS OF SASSAFRAS—A VIVID REMINISCENCE

A man in Joplin, Mo., says that he has lived to be ninety-two years old by drinking sassafras tea.

We have lived in Missouri ourselves, and, worse than that, we have tasted sassafras tea. We don't envy the Joplin gentleman in the least. Our father always liked sassafras tea—that is, he always liked for us to take it. He said it thinned the blood in the spring. Then he would catch us, hold both of our hands, and proceed to thin our blood. He would pour the tea down our throat and hold our nose till we had to breathe and swallow it. We would yell at the top of our voice and tell him we would rather have blood like molasses than take any more of that tea, but he would only reach for another cup and our nose. Mother would stand there sad, but cheering us by telling us how much better we would feel after our blood got thin, and how all growing boys needed it, and how Susan took it without a word.

If you would listen to father you would think our blood was as thick as sausage and that we'd never see May flowers unless he held our nose twice a day. Father was good at that. He didn't know anything about jiu-jitsu or half-nelsons, but when he reached for us to have our blood thinned, we couldn't lift an eyebrow until the last bit of sassafras was drained.

It took a surprising amount of sassafras to thin a person's blood. It seemed enough to us to raise Clear creek before father would say, "Well, son, the tea seems to be doing its work. You can stop now and take it every other day." —[Homer Croy in Judge.

An Old Favorite.

That was a lasting fish joke we heard when a boy. The son had the fishing fever and kept hinting to his father that it was a good day for fish to bite. The father finally advised: "You stay right between those plow handles, son, and they won't bite you." —[Dover News.

To Vaccination Was Also Unknown To This Trooper In the Ranks.

A MISTAKE HERE CORRECTED

Editors Herald:—I'm not going to say one word about vaccination. When Dr. Hodge said, "It is a crime, and to call it anything else is to temporize," and when a leading physician of Philadelphia said, "The man who puts vaccine virus in a child, ought to be put in the penitentiary," that was enough, and I'm not going to squander your valuable space by thrashing around and telling your readers that it is passing strange and suspicious that some of the American reprints of the Britannica omit Dr. Creighton's article on vaccination, or about Prof. Cruikshank who, in defense of it, went into an exhaustive investigation and came out in two volumes against it.

Why should I say more of a loathsome virus, the purest of which is but putrid matter running from the sore of a diseased calf, originally taken from a human being who may have had tuberculosis, scrofula, tetanus or some other fatal disease, as was so frightfully demonstrated in the well known Jenner experiment when the virus was taken from a man who had been handling the hoofs of a diseased horse?

No, sir'ee. Not another word about a practice which is admitted to have resulted in thirty-six cases, most of them fatal, of tetanus (lockjaw)—in Philadelphia in the fall of 1901. But I do want to refer to some of the surprising and interesting results of my off-hand article published in your issue of the 30th ult.

That the Hartford Herald got 'way up in Bridgeport, Conn., in less than three days and so aroused the enthusiasm of Major Thomas Toudren, with his warm praise of your liberal policy of opening your columns to the fair discussion of public question, fills me with wonder, not so much at the strange power of the press, as that the Herald is so widely and carefully read. Why, it never occurred to me that even the Puritans—whom I may owe many apologies—read The Herald.

Napoleon said, "Four hostile newspapers are to be dreaded more than a thousand bayonets."

I never knew there was organized opposition to vaccination, although my reading has been pretty general, if somewhat desultory (would this justify me in half suspecting the press has not been altogether fair?) In fact, while I knew there was a strong, instinctive undercurrent of revolt, I thought I was about the only one in the U. S. who had ventured to—to well, to jump into the river and holler, "Fire!" So, damn my ignorance if you must, but you can't gainsay my moral courage.

As to the secretary of A. C. V. S., Mr. C. G. Fowler's criticism of my unguarded statement, his overwhelming official proof convicts me of an error I very much regret. Always careful of my statements of facts and figures, I was sure of my ground but now I feel like an old preacher whom the late Rev. D. J. K. Maddox used to tell me about. This divine, with the best of intentions, made a statement before a large body of fellow preachers which proved to be immensely unpopular and they all jumped upon him and tromped around till he was metaphorically reduced to a mass of quivering pulp—till he looked like a composite, pot-metal cup of grief, humility and rout. When he regained his speech and arose, the picture of utter subjugation, he feebly wailed, "Brethren: I wish I hadn't a spake unto ye." Mine is

a clear case of foolin' round a feller I didn't know was loaded.

However, there is some consolation in the fact that I erred on mercy's side and against myself. To say our soldiers in the Philippines were vaccinated every six months, I knew was putting it pretty strong, but to know, as a matter of fact, I should have said every SIX WEEKS, is—well it makes it a lot more like a charge of dynamite. A vigilance that refuses to allow the misstatement of even an "idiot," however cheerful, to go unchallenged, is proof of the fitness of Mr. Fowler for secretary and his co-workers are to be congratulated on the wisdom of their choice.

Joining the Major in his high appreciation of The Herald's liberal and impartial policy—the policy of hearing both sides of questions of public importance, that the reader may form just and correct conclusions—thanking the secretary for calling your attention to my error and strong in the faith that, "Thar's hope fer Greece yit," I abandon the subject to abler pens and subscribe myself the same old SIMON SUGGS.

LITTLE CHILD CAUSES A GREAT LOSS BY FIRE

Mt. Sterling, Ky., May 15.—The residence and barn belonging to J. B. Cecil, on the Maysville pike, one mile from here, were destroyed by fire Tuesday afternoon.

The 4-year-old grandson of Mr. Cecil was playing in the barn and is said to have set it on fire. After seeing the fire get a start, the child ran to the house and told his mother, who with a number of other women, were guests of Mrs. Cecil. The women ran to the barn which was in flames and released several horses, but failed to get out a valuable brood-mare which perished. Three buggies, a lot of feed, harness, etc., were burned. The residence caught fire from the stable and was quickly consumed with most of its contents.

During the fire Mrs. Bruce Turner, in attempting to save her family horse, was frightfully burned about face and hands, and the mare also was burned. The loss falls heavily on Mr. Cecil and will reach about \$3,500 with little insurance. Mr. Cecil was at Bethel at the time of the fire.

There never was a time when people appreciated the real merits of Chamberlain's Cough Remedy more than now. This is shown by the increase in sales and voluntary testimonials from persons who have been cured by it. If you or your children are troubled with a cough or cold, give it a trial and become acquainted with its good qualities. For sale by all dealers.

Much Tobacco Unsold.

Pete Sheeran says there is one million pounds of unsold tobacco in the territory surrounding Kirk. Mr. Tate, who buys for Sheeran Bros. & Co., looked at approximately sixty-five crops last week, and the highest he could offer was an average of about \$4.50 around. For a few crops Mr. Tate offered as high as \$7, \$5 and \$2, but they were in the minority. There seems little encouragement to the farmers to plant another crop of tobacco when they still have on hand their 1912 crop and no market in sight. —[Hardsburg Leader.]

JOHNSON GUILTY ON ALL CHARGES

Black Fighter Convicted On Seven Counts

OF VIOLATING THE MANN ACT

Verdict Will Probably Lead To Federal Laws Against Miscegenation.

JOHNSON RELEASED ON BOND

Chicago, May 15.—That the conviction of Jack Johnson, negro prize fighter, last night for violation of the Mann act against trafficking in women, is the forerunner of laws forbidding miscegenation, was the assertion to-day of Assistant United States District Attorney Harry Parkin, who conducted the case for the Government.

"This verdict will go around the world," he said. "It is the forerunner of laws to be passed in the United States which we may live to see, laws forbidding miscegenation. This negro, in the eyes of many, has been persecuted. Perhaps as an individual he was. But his misfortune is to be the foremost example of the evil in permitting the intermarriage of whites and blacks. He has violated the law, now it is his function to teach others the law must be respected."

In his instructions to the jury United States District Judge Carpenter, emphasized the fact that the character of the prosecuting witness must not be considered.

"The fact that the prosecuting witness is a discarded mistress, an abandoned woman, does not affect the issue in this case," the court said. "We have had many unfortunate people here in this case—trainers, fighting camp hangers-on and women of the underworld—but because of their status in life, their evidence must not be disregarded."

"It is as much an offense under the Mann act to transport a hardened woman as an innocent girl. It is not necessary that a person accused of violating the act shall receive a profit through the transportation of a woman."

Johnson was convicted on all seven counts in the indictment.

The jury returned its verdict after deliberating an hour. The maximum penalty under the finding is five years' imprisonment or \$10,000 fine, or both.

A motion of District Attorney Parkin that Johnson be ordered confined in the county jail was overruled by Judge Carpenter and the negro was released on bond of \$10,000. A motion for a new trial was filed at once by counsel for Johnson and arguments on the motion were set for May 19.

Four ballots were taken by the jury, the first being four for acquittal and eight for conviction.

Two counts of the indictment were dismissed at the request of Judge Carpenter, who declared that no good purpose could be served by airing unnecessary details of the relations of Johnson and the white woman.

Lucille Cameron Johnson, his present white wife, did not appear in the court room at any time, his attorneys fearing the effect of her appearance. Instead Mrs. Tina Johnson, the negro's mother, sat constantly at his side. Only a few persons were in the court when the verdict was reached, as a result of an order of Judge Carpenter that "scandal fans" be barred from the hearings.

The suggestion of Johnson's "golden smile," which had been on his lips during the time of the jury's deliberations, faded when the clerk pronounced the word "guilty." Johnson sat solemnly in his seat until Attorney Parkin's motion that the fighter be taken into custody was denied, when he slipped quietly from his seat and made his way from the court room alone.

"I have nothing to say," he said. "My attorney will speak for me."

SENTENCED FOR LIFE. RAISES NOVEL POINT

Frankfort, Ky., May 16.—A novel point with respect to the statute providing an increased penalty for a second conviction of a felony and life sentence for the third conviction, is raised in the appeal of Andrew McIntire, a negro, sentenced for life in Nelson county for feloniously striking another. He was convicted once of breaking into an outhouse, again of maliciously wounding and a third time of chicken stealing. Then he was indicted for breaking into a railroad car, the indictment reciting his former convictions, and he was declared not guilty. Now his counsel contends that the verdict of "not guilty" on the indictment for breaking into a railroad car, coupled with reference to his former indictments, is a bar to a life sentence and he pleads a former acquittal to the previous conviction portion of the indictment. It is the first time this question has been squarely presented to a court.

The Bull Moosers are to put out
a full ticket for the county offices
in Lyon county.

It's a shame that the United
States should be rejected and dip-
lomatically fired from Mexico.
Isn't it?

Over at Chicago the Elephant has
been trying to swallow the Bull
Moose, but this strenuous feat has
not yet been quite accomplished.

A call has been issued for a mass
meeting of the Progressive party of
Grayson county, to be held at the
court house in Leitchfield next Mon-
day, for the purpose of making
plans to put out a full county ticket
at the coming August primary
election.

Messrs. Stanley and Beckham are
pointing their lances at each other
in the Senatorial conflict, and this
contest is beginning to warm up
already. Better keep cool, boys.
This affair is not to be settled at
the polls until August a year hence,
and the voters will have plenty of
time to think in that interval.

It is announced that the Illinois
Legislature proposes to require a
man to pass an examination before
he is permitted to engage in the
newspaper business. This would
probably knock out any one of a
set of street loafers among whom
Col. Lemon, of the Mayfield Mes-
senger, says he could select a fel-
low who would make a better news-
paper man than a practical printer.

Drs. F. F. Friedmann and Mau-
rice A. Sturm, of New York City,
are in the midst of a heated dis-
cussion as to whether the former
gave unto the latter the formula or
secret of his famous vaccine or tur-
tle culture for the cure of tuber-
culosis. Dr. Friedmann says he
did not. Dr. Sturm claims to have
it. Each doctor has opened up a
rival clinic in New York City and
the medical fight promises to wax
warmer as the days go by.

Mr. Leo Fentress, who is a can-
didate for the Democratic nomina-
tion for County Clerk of Muhlen-
berg, uses a unique card in his can-
vass. On one side of the card is
a picture of seven pretty little chil-
dren, all in a line, ranging in ages
from 9 months to 9 years. Mr.
Fentress says these are his seven
reasons for wanting to be Clerk.
They are certainly goods ones and,
together with his well known cap-
ability, constitute a strong plea for
his nomination and election.

One of the most beneficial and
enlightening features of the trial
and conviction of the negro pugilist
Jack Johnson, at Chicago last week,
for violation of the Mann white-
slave act, was that the verdict will
probably cause to be enacted in all
the States, laws forbidding misce-
genation, or intermarriage of whites
and blacks. It is against the laws
of nature and against the edicts of
common decency for a black man
and a white woman to marry each
other. There should be a law in
every State forbidding this degrad-
ing practice. It is to the shame of
this country that such a thing
should be permitted in any of the
States.

In speaking of ex-President Taft
recently committing himself as
against the recall regime, the Chi-
cago Inter Ocean says:

"When William Howard Taft was
President his enemies were wont to
say of him that he had no settled
political convictions. The truth is
that Mr. Taft had more settled po-
litical convictions than he thought
it was proper for the President of
the United States to reiterate.
Now that he is Professor Taft of
Yale he can speak his mind freely
and violate none of the proprieties."

It was this very uncertainty of
principles and expression which
made Mr. Taft such an unsatisfac-
tory President. A man holding any
office within the gift of the people,
should be free in the expression of
his views. The public has a right
to know just how he stands on cur-
rent questions. It may be noted
that we now have a President whose
ambiguity is not apparent.

FOREST PATROLS ARE TO BE ESTABLISHED

Frankfort, Ky., May 17.—State
Forester J. E. Barton and J. G.
Peters, of the federal bureau of for-
estry, to-day practically agreed up-
on a system of forest patrols and a
plan for fire prevention. The State
is to be divided into ten districts.
Districts Eight, Nine and Ten, em-
bracing the mountain section of East-
ern Kentucky, and the watersheds

of the larger streams, will be pa-
trolled during the latter part of
September, all of October and No-
vember and the first half of Decem-
ber by thirty men at an approximate
expense of \$5,400, half of which
will be paid by the Government and
half by the State.

By Narrow Margin.

Bowling Green, Ky., May 19.—
The Cumberland Presbyterian as-
sembly by narrow margin vote of
37 to 36 decided to-day to main-
tain its connection with the Pan-
Presbyterian alliance. The debate
was spirited and it looked as if the
opposition would win for a time.

A lively rally also greeted the at-
tempt of Moderator Milholland to
strike one name from the publica-
tion committee membership. The
appeal from the chair was overruled.
The assembly will adjourn to-mor-
row.

ALL THE CANDIDATES FOR SUPT. SCHOOLS

Must Pass Examination Unless
They Now Hold State
Certificate.

Prof. Barksdale Hamlett, State
Superintendent of Public Instruc-
tion, has issued the following bulle-
tin relating to the qualifications of
candidates for County Superintendent
of Schools:

First—The act of 1912 requires
all candidates for the office of
County Superintendent, except those
who are in office, to hold a State
Certificate issued by the State Board
of Examiners, which does not ex-
pire during the anticipated term of
office.

Second—The applicant may qual-
ify by taking a special examination,
to be held in the Department of
Education, Frankfort, May 30 and
31 and June 27 and 28. This ex-
amination is in all respects equiva-
lent to the examination for the regu-
lar State certificate.

Third—The applicant may qual-
ify by taking the regular State ex-
amination, June 20 and 21, either
in the county in which the appli-
cant resides or in Frankfort, before
the State Board of Examiners.

Fourth—Applicants may qualify
after nominations are made in the
August primary. However, there
is only one chance after the pri-
mary, and that is in the regular
State examination in August, and
the candidate cannot take this ex-
amination, except in his home coun-
ty, where he expects to run for of-
fice, or in Frankfort in the Depart-
ment of Education.

Fifth—Incumbents in office, un-
der the law, are qualified, by virtue
of their past tenure of office, to run
for re-election without further ex-
amination.

Sixth—The 1912 law prescribes
that all candidates who are not in-
cumbents in office must either have
a certificate as herein described or
take this special examination, which
is in all respects the equivalent of
a State certificate. Therefore all
such candidates must have taught
two years, the time required by law
to secure a State certificate.—Ken-
tucky Statutes, Carroll, Section
4503; Kentucky School Law, Ham-
lett, 1912, Section 79.

CHINA AROUSES FROM SLEEP

Of Ages To Take Her Place
Among the Enlightened
Governments.

AN EXCHANGE OF CIVILITIES

President Wilson's letter of recog-
nition, delivered to the president
of the Chinese republic upon the
organization of the Legislature, and
the reply of Yuan Shi Kai, the pro-
visional president, deserves a place
in the school books of both coun-
tries. The United States took the
initiative in welcoming the great
republic which has just been estab-
lished in the orient. The Presi-
dent's letter reads as follows:

"The Government and people of
the United States, having recently
testified their sympathy with the
people of China upon their assump-
tion of the attributes and powers of
self-government, deem it opportune
at this time, when the representa-
tive national assembly has met to
discharge the high duty of setting
the seal of full accomplishment up-
on the aspirations of the Chinese
people, that I extend in the name of
my Government and my country-
men, a greeting of welcome to the
new China thus entering into the
family of nations.

"In taking this step I entertain
the confident hope and expectation
that the Chinese nation will attain
the highest degree of development
and well being and that under the
new rule all established obligations
of China which pass to the provi-
sional governor will in turn, pass to
and be served by the government
established by the assembly."

The pleasure which it gave our
Chief Executive to extend this wel-
come to the nation which has just
secured for its people participation
in their government is manifested
in the language employed by Presi-
dent Wilson. The reply that comes
back from China is as cordial in
sentiment and as beautiful in
phraseology. It reads:

"In the name of the republic of
China I thank you most heartily
for the message of recognition
which you have just sent to me
through your honored representa-
tive in this capital. The sentiments
of amity and good will which it
bespeaks, and the expressions of
greetings and welcome which it
conveys, at once testify to the
American spirit of mutual helpful-
ness and friendly intercourse be-
tween China and the United States.
Though unfamiliar with the repub-
lican form of government, the Chi-
nese people are fully convinced of
the soundness of the principle
which underlies it and which is so
luminously represented by your
glorious commonwealth. The sole
aim of the government which they
have established, therefore, is and
will be to preserve this form of
government and to perfect its work-
ings, to the end that they may en-
joy its unalloyed blessings; pros-
perity and happiness within,
through the union of law and lib-
erty; and peace and friendship with-
out, through the faithful execution
of all established obligations."

other's fame more enduring by the
sentiments expressed and the lan-
guage employed.

A Glorious Revival.

Herrin, Ill., May 18, 1913.
Editors Herald:—I will write you
a few lines, as my many friends
will be glad to know of the success
of a glorious union revival going on
here now, led by Evangelists Hart
and Magann, of St. Louis. We have
a tabernacle 80x110 feet. It has
been going on three weeks and
there have been over 400 profes-
sions and about 30 are still at the
altar. The revival will go on next

week. The building is crowded ev-
ery day and night. We have a
chorus of 300 voices. May the good
work go on and many more souls
be brought to Christ.

Yours truly,
U. M. EVERLY.

Fined and Rearrested.

In the case of the Com'th. vs.
James Collard, of Rosine, charged
with a breach of the peace, a plea
of guilty was entered when ar-
raigned before Judge R. R. Wed-
ding last Friday. The law and facts
were submitted to the court, and a
fine of \$25 and costs was assessed
against him. An order was entered
suspending the fine for ten days
during which time the fine and
costs to be paid or replevied. He
was then rearrested under another
breach of the peace warrant and
his bond was fixed at \$100. Fail-
ing to execute bond, he was re-
manded to jail to await trial.

NEWLY MARRIED PAIR ENTER SUICIDE PACT

Accused Clerk Shoots Bride and
Then Slays Self—Wom-
an Took Poison.

St. Paul, Minn., May 17.—J. J.
Curl, arrested by Federal authori-
ties last Wednesday on the charge
of receiving fraudulent checks
through the mails, late to-day shot
and probably fatally injured his
bride of two days and then shot
himself, dying half an hour later.
Curl failed to appear in court this
morning for hearing, having been
released from the county jail on
\$1,000 bonds.

The shooting to-night brought to
an end the romance of Miss Mar-
guerite Logan, of Kansas City, now
Mrs. Curl, and, according to physi-
cians, probably also will end her
life. Last Wednesday Miss Logan
arrived to wed Curl but found him
in jail. Thursday, however, Curl
secured bail and was ordered to ap-
pear in court to-day for formal
hearing. That afternoon they were
married, Miss Logan declaring she
had faith in Curl despite the charge
against him.

When Curl did not appear in
court Post-office inspectors began a
search. Locked in a room at a ho-
tel the two were found, both near
death. Curl died soon after and
his bride, with several wounds, is
not expected to recover. Officials
believe that despondency over the
charges against him caused Curl's
act.

Notes written by both found to-
night by the police disclosed that
there had been a suicide pact and
that Curl shot his wife and then
turned the weapon upon himself.

One of Mrs. Curl's notes was ad-
dressed to her mother, Mrs. M. L.
Logan, 35 South Lincoln street,
Denver, Col. Before lapsing into
unconsciousness at the hospital to-
night she told attendants she had
swallowed a quantity of poison to
make her death more certain.

Curl is said to have been born in
Norfolk, Va.

Last winter while employed with
a construction firm at Kansas City,
Mo., he met Miss Marguerite Log-
an and later they became engaged.
A short time ago he came to this
city where he held an important
position with a construction com-
pany. Curl, it was claimed, had pad-
ded his payroll and cashed the
checks drawn against fictitious
names.

CUBAN FIRST TO FLY OVER FLORIDA STRAITS

Makes Trip From Key West To
Havana and Wins \$10,000
Prize Offered.

Havana, Cuba, May 17.—Domingo
Rosillo, the Cuban aviator, to-
day made the first flight ever ac-
complished by a Cuban airman
across the Florida Straits from
shore to shore. He started from
Key West at 5:35 o'clock and arrived
at Havana at 8:10, making the
passage of ninety miles in two
hours and twenty-five minutes.

The announcement of his start
from Key West had been given by
the discharge of three shots from
Cubana Fort and when he came
into view he was hailed with accla-
mations by virtually the whole popu-
lation of the city, of whom the
greater part had gathered along the
streets and harbor fronts.

Rosillo approached the city flying
at an altitude of 2,000 feet. He
then wheeled toward the west and
landed at Camp Columbia. He ex-
perienced no difficulty during the

flight. The winds were light and
there was only a slight haze.

By the accomplishment of this
flight Rosillo wins the prize of \$10,-
000 offered by the Havana city
council to the first Cuban aviator
to cross the straits.

J. A. D. McCurdy, a Canadian,
made a flight across the Florida
Straits on January 30, 1911, but
owing to an accident, was compelled
to descend in the water ten miles
from Havana.

Dr. Baker came up with the view of locating in Hartford in the near future, if satisfactory arrangements can be made for office rooms and board. Dr. Baker is too well and favorably known for any comment on our part. We sincerely hope he will decide to cast his lot with us.

Mr. J. S. Chinn, of Beaver Dam, gave The Herald a pleasant call while in Hartford Friday. Mr. Chinn is very badly crippled up, as he is suffering from a bullet in his hip, put there by some Yankee during the Civil War. He is an old Confederate veteran and was in 41 of 42 battles from Shiloh to Chickamauga, being shot down in the latter fight. He belonged to the famous Orphan Brigade, along with Messrs. Lute Collins and Dr. J. E. Pendleton, of Hartford, who died several years ago and who were his close associates. The Orphan Brigade was noted for its fighting propensities.

WOULD-BE CHICKEN THIEF VERY NEATLY CAUGHT

After supper one night last week Mr. C. B. Howard, who lives in East Hartford, came over in town to buy some medicine for his children, who have whooping cough. During his absence his wife locked the outhouses, including the chickenhouse. Returning home, Mr. Howard, not knowing his wife had performed the mission, proceeded to lock the outhouses, and finding them all secure, he was on the point of leaving them, when he noticed a large plank torn or pried off the chickenhouse.

He stepped up and looking through the opening, saw the outlines of a dark form within. He commanded the person to come out, but there was no reply. Upon Mr. Howard using threatening language, the intruder finally crawled through the opening, and proved to be a well known negro character of the colored settlement of Hayti, not far away. He was evidently after chickens when Mrs. Howard unknowingly locked him in the chickenhouse and he had pried off a board to get out, but did not quite make it before Mr. Howard returned.

Mr. Howard gave the would-be chicken thief some very forcible advice, warning him forever off the premises, and allowed him to go. This same negro man has been caught in other depredations.

A Social Surprise.

On the beautiful Sabbath morning of May 18th, when the sun was shining with all its invigorating springtime warmth and the trees were clothed in their bright, tender May green garb, the neighbors, friends and relatives of Mr. J. B. Wade and sister Miss Amanda Wade, came to their home, near Centertown, Ky., to their great surprise, one after another, until there

was a large crowd gathered together with baskets filled to the brim with just such nice things as only Kentucky women know how to prepare.

To everyone present the day was a social feast in the broadest sense of the word and will long be remembered as a green spot on memory's wall. H. W.

SOME NEW SCRIPTURE CLAIMED TO BE FOUND

In Old Manuscripts Of Egypt—
Long Missing Verses
Of St. Mark.

London, May 15.—Some long-missing verses of the New Testament are included in the manuscripts of the gospels discovered in Egypt six years ago and purchased by Chas. L. Freer of Detroit, Mich., according to a study made of the Freer manuscripts by the Times. A facsimile of the manuscripts has been presented to the British Museum by the University of Michigan to which Mr. Freer assigned the task of publication and according to the Times study, there have been found in the gospel of St. Mark several verses which occur in no other known manuscript of the New Testament, although they were known to St. Jerome who quotes part of them.

In the Freer manuscript, after the passage in which it is said that Jesus upbraided His disciples for their unbelief, the text continues as follows:

"And they excused themselves, saying that this age of lawlessness and unbelief is under Satan, who through the agency of unclean spirits, suffers not the true power of God to be apprehended.

"For because, said they unto Christ, reveal now at once Thy righteousness.

"And Christ said unto them, The limit of the years of the power of Satan is (not) fulfilled, but it draweth near. (The text here and elsewhere is corrupt).

"For the sake of those that have sinned was I given up unto death, that they may return unto the truth and sin no more, but may inherit the spiritual and incorruptible glory of righteousness in heaven."

A large number of variations in other portions of the New Testament are also pointed out by the Times in the Freer manuscripts.

THE 17TH AMENDMENT.

The amendment to the Constitution for the popular election of United States Senators, is the seventeenth to be adopted. It reads:

"The Senate of the United States shall be composed of two Senators from each State, elected by the people thereof, for six years, and each Senator shall have one vote. The electors in each State shall have the qualifications requisite for electors of the most numerous branches of the State Legislatures.

"When vacancies happen in the representation of any State in the Senate, the executive authority of such State shall issue writ of election to fill such vacancies, provided that the Legislature of any State may empower the executive thereof to make temporary appointments until the people fill the vacancies by election as the Legislature may direct."

The great calamity in Omaha was quickly overshadowed by the terribly disastrous floods in Ohio. Great suffering and sickness from colds and exposure resulted which Foley's Honey and Tar Compound helped to alleviate. L. Poole, 2217 California St., Omaha, writes: "My daughter had a severe cough and cold but Foley's Honey and Tar Compound knocked it out in no time. My wife would not keep house without it. We have used it for years, always with good results." For sale by all dealers. (Advertisement.)

INTELLECTUAL AWAKENING

(By W. H. Cundiff.)
Notwithstanding the growth of plutocracy, which has a tendency to cause mental and moral decadence, and the increase of poverty, which is ever attended by its concomitants—ignorance and squalor, misery and degradation—there is in the beginning of the Twentieth Century the greatest intellectual awakening known to history.

Thanks to the free public school, there are unmistakable signs of mental advance and of moral improvement. Political and social conditions are promising a very high outgrowth of ideas and principles which will beget a greater spirit of democracy and more abhorrence of injustice, oppression, predatory wealth, and political and economic power used to pervert justice, and to oppress the people.

The decline in mental energy can never again be what it was in the Dark Ages. Everywhere education, agitation, propaganda and organization are for unity and progress.

Science, art, literature and mechanical inventions are bringing about social and political revolutions in many countries.

Through the great evolution in human thought and life, man is becoming more and more a social and co-operative being. The soft, gentle virtues of mercy and love are taking the place of injustice, inhumanity and the greed and lust for unearned riches and unjust power. Mental vigor and moral worth are slowly but surely winning for mankind a Divine Civilization and a Pure Religion.

Character and intellect are becoming more potent than social rank, and more reputable and more recognized than great riches.

Good deeds and social service are more honored than is a selfish individualism gone to seed in an unwise egotism. Intellectual awakening is for the man social rather than the man individual. And the trend of thought is toward that humanity and co-operation which builds up society rather than individuals under the new motto: "One for all and all for one."

A KNIFE WAS HANDED TO CONVICTED BURGLAR By His Sweetheart and He Tried To Carve His Way To Freedom.

Chicago, May 17.—When Harry Evans had been convicted of burglary in the Municipal Court to-day, Garnett Fairfield, a cabaret singer, his sweetheart, passed him her handkerchief.

Evans extracted an open knife from the handkerchief and started to carve his way to freedom.

Detective Roschulte was cut in the neck and Deputy Bohaber was stabbed in the breast before Evans was overpowered. The girl was arrested.

Only the presence in the courtroom of an unusually large number of bailiffs and detectives prevented a double murder and the release of Evans and Albert Jensen, who had been tried with Evans for burglary, according to Municipal Judge Cooper.

A number of friends of the two men were in the courtroom and it is believed that they planned to go to the prisoner's aid, when they were frightened by the number of men who met the attack of Evans and Jensen.

Miss Fairfield had introduced herself as Evans' sister and managed to give him the knife in her handkerchief when she approached him by permission of the Court, ostensibly to kiss the prisoner good-by.

Evans, after being taken to jail, declared he had tried to kill Detective Roschulte because, he said, the policeman had beaten him when in the police station while seeking to extract a confession.

BRONCHITIS SUFFERER Takes Druggist's Advice With Splendid Result.

If anyone should know the worth of a medicine, it is the retail druggist who sells it over his counter every day in the week, and is in a position to know what remedy gives the best satisfaction.

Mrs. Frank H. Uline, of West Sand Lake, N. Y., says: "For a number of years I was a great sufferer from bronchitis. Last July I had an attack which was more severe than any, and my friends thought I could not recover from it. Then I was advised by my druggist to try Vinol, which I did, with wonderful results. My cough has left me; I have gained in weight and appetite, and I am as strong as ever I was. I advise all who have bronchitis, chronic coughs, or who are run down to try Vinol."

It is the combined action of the medicinal curative elements of the cod's liver, without the greasy oil, aided by the blood-making and strength-creating properties of tonic iron that makes Vinol so efficient.

Remember, we guarantee Vinol to do just what we say—we pay back your money if it does not. James H. Williams, Druggist, Hartford, Ky.

HAD VERY HEAVY FIRE LOSS AT HARDINSBURG

Fourteen Mercantile Buildings Were Destroyed By Early Morning Flames.

Irvington, Ky., May 14.—Fourteen of the principal business houses of Hardinsburg, county seat of Breckenridge county, were destroyed by fire this morning. The flames started in a bakery at 4 o'clock and spread rapidly, consuming all the houses on one side of Main street for one block and lapping over the street, burned several houses. The Hardinsburg Bank and Trust Company building was destroyed.

The Henderson road furnished their employees here with a special engine, which made a record run to aid in fighting the flames. The entire east side of Main street for an entire block was destroyed, including several residences on Louisville street.

A conservative estimate of the loss is \$125,000, partly covered by insurance. The principal business firms which suffered were: B. F. Beard & Co., dry goods, who carried a stock of \$20,000, partly insured; James Gardner & Son, dry goods, partly insured; Kincheloe Drug Company, two stores, partly insured; Spellman's hardware store, partly insured; J. W. Guthrie, confectioner, partly insured; J. H. Lenn, general merchandise, partly insured; J. P. Haswell, Sr., general merchandise, partly insured, and the Masonic Temple building, in the basement of which the fire originated. Several smaller shops were destroyed, which carried little if any insurance.

The Hardinsburg Bank and Trust Company probably carried sufficient insurance on their building to cover the loss.

On account of dry weather and practically no fire-fighting facilities, the town looked doomed at one time, but with the untiring efforts of several bucket brigades the flames were finally subdued.

A noble fight saved the Farmers' Bank and Trust Company and new Methodist church.

DECISION AS TO THE SALE OF GAME BIRDS

The Kentucky Court Of Appeals Rules On This Important Question.

There apparently having arisen some misconception of the law regarding the sale of game birds in Kentucky, below is given a copy of the opinion of the Court of Appeals recently handed down, on this question:

"The twelfth section of the act was intended for the better enforcement of the preceding sections, but the thirteenth section was intended to make unlawful the sale or exposing for sale of any of the animals or birds named in the preceding sections within the closed periods above described. Game is migratory; the wild geese and wild ducks which appear here at certain seasons are in the South in winter and in the North in summer. Deer and squirrels also move about, although not to the same extent as wild geese and ducks. The robbers that are here in the spring, winter in the South, and frequently nest in the far North.

"The purpose of the thirteenth section was to protect these birds and animals by preventing their sale during the closed season, no matter where or when killed.

"The act of March 24, 1904, makes it unlawful at any time to buy, sell or expose for sale, or have in possession for the purpose of sale, certain birds which have been killed within this State. The purpose of this section was to prevent the sale of those birds at any time if killed in the State. It was not intended to modify the prohibition expressed in section 13 of the act of 1894. That section only applies during the closed season. The act of 1904 applies at any time, but only to birds which have been killed within the State.

"Summing up the matter, we conclude as follows: First, it is not unlawful under section 6 of the act of 1894 (Section 1,944, Ky. Stats.) to have in possession quail during the closed season, unless the quail was caught or killed in this State; second, it is unlawful to expose for sale under Section 13 of the act of 1894 (Section 1,951, Ky. Stats.), any quail within the closed period, whether killed within or without the State; third, it is unlawful at any time to buy, sell or expose for sale, offer for sale, or have in possession for the purpose of sale, any quail which have been killed within this State. The result of the two sections when read together is that quail killed within the State may not be lawfully sold or offered for sale at any time, and that quail killed without the State may be lawfully offered for sale only during the open season; fourth, these restrictions are within the power of the Legislature in protecting the game of the Commonwealth."

Cocunut Milk.
One day the children in a school were given a lesson about the cow. The next day a cocunut was brought in for their inspection.

When the big nut came to Rosie Goldberg, she happened to shake it and heard something inside. "What's that?" she asked. "That's milk,"

Rosie took another look at the nut and asked, "Did the cow lay it?"

"MOTHER" JONES DEFIES WEST VIRGINIA OFFICIALS

Conditions Found in Mining District "Worse Than Russia," She Says.

Pittsburgh, May 18.—"We are going to organize the State of West Virginia if every one of us dies in the battle," declared Mrs. Mary "Mother" Jones, the aged leader of the miners of the mountain State, to a large audience at a local theater this afternoon. "I'm going back to West Virginia. If I can't go on a train, I'll walk in."

Mrs. Jones arrived here today from Washington, where she had presented the miners' side of the West Virginia strike situation to Senator Kern.

When martial law was declared in the West Virginia coal fields, "Mother" Jones hurried to the scene from Montana and announced her intention to address the men in the trouble zone.

"One of the boys," she said, "told me: 'If you go up there, Mother, you'll come back on a stretcher; no organizer can speak there.' I spoke there. I didn't come out on a stretcher. I raised hell."

She explained that after organizing the men she went to work to organize the women. "I organized the women," said the speaker, "because the women can lick a scab better than you fellows here can."

In discussing the question as to whether the miners had weapons, "Mother" Jones admitted that the miners had some guns. "They needed them," she said.

"When I was addressing the boys at a meeting," she added in this connection, "I said the Governor wants your guns. Don't you dare give up any of them. If you are forced to use them, you use them."

In a vigorous attack on the laboring classes of the country she exclaimed: "You are moral cowards! There was a drumhead courtmartial made up of military despots, and you did not even stir."

The trial of both herself and the miners by the military commission was related. "I shall never forget the last day of the trial. It seemed to me as if the flag of liberty was gone, and in its stead the flag of Russia waved," she said. "When you do go among these people down there and see them as I have, I want to say that the brutality is worse than Darkest Russia and barbarous Mexico."

In conclusion "Mother" Jones advised the labor unions of the country "to stand together." "You trades unions must stop wrangling with the I. W. W. and the I. W. W. must stop wrangling with the trades unions. I know industrial unionism is coming, and you can't stop it."

Want Civil Law Restored.

Wheeling, W. Va., May 18.—At a public mass meeting here today addressed by Senator William Green, of Ohio, and President John Moore, of the Ohio Mine Workers, resolutions were adopted which demanded the immediate termination of martial law in the Kanawha coal field of West Virginia and favor a Federal investigation of conditions in and surrounding that coal field.

HOPEWELL.

May 19.—R. S. Taylor, known as Uncle Dick, died May 17th and was laid to rest next day at the Taylortown cemetery. He was born February 3, 1833, and died in his old home where he had lived all of these years. He professed faith in Christ several years ago. There being no church of his choice near him, he threw all of his influence with the Methodist, it being close to his home, and gave the site for the church. He never made any great display about his religion, but showed his faith by his walk and works. You never heard him say evil of any one but always had a good word for all and he lived a consistent Christian until death.

He leaves 4 sisters and 2 brothers to mourn their loss. Religious services were conducted by the pastor, Bro. Eply.

Mrs. J. A. Miller lost a good horse last week, and Messrs. W. E. Johnson, Jim Clark, Jim Russell, Addie Robertson, Jim Coleman, Layton Williams, Jack Taylor, Bill and Albin Shull went to her farm, harrowed the ground and planted her corn last Wednesday.

HANCOCK FARMER ENDS LIFE AT END OF ROPE

Hawesville, Ky., May 19.—William Schwartz, a farmer living three miles west of town, hanged himself in his barn early this morning. He was thirty-five years of age and single and had only recently bought a farm and was apparently doing well. He came to this county a few years ago from Troy, Ind. He was prematurely gray and has had peculiar white spots on his body since his birth. Squire Tom Henderson held the inquest and the verdict was in accordance with the above facts.

CLEAR RUN.

May 19.—The farmers were glad to see the little showers of rain which were badly needed.

We are expecting a fine corn crop this season, owing to the scarcity of tobacco plants.

Mr. and Mrs. F. Taylor, of Taffy, are the proud parents of a fine girl baby.

The little daughter of Mr. and Mrs. Fred Lake is very ill.

Mrs. C. E. Hoover and children, Edna and Dennis, of Beaver Dam, spent last week with relatives here.

Rev. R. E. Fuqua preached his farewell sermon at Adaburg church yesterday.

Mr. C. T. Funk and family and Mrs. C. E. Hoover and son visited their aunt, Mrs. Minnie Feemster, of Palo, last week.

Mrs. J. H. Park and son Orland have gone to Whitesville to visit Mrs. Ion Sinnett.

Rev. Tichenor, of Centertown, finished plastering Mr. James Kirk's house last week. Mr. Kirk will move into his new residence at once.

Miss Ethel Funk is on the sick list.

RALPH.

May 17.—A nice rain fell here Friday which was very much appreciated by the farmers.

Mrs. Myrtle Cooper, of Ill., is visiting her sister, Mrs. Carrie Brown.

Several in this neighborhood have whooping cough.

Mrs. O. M. Edge, of Knottsville, visited her parents, Mr. and Mrs. W. M. Howard, Thursday night.

Mr. Pete Kelly, of Whitesville, and Esq. J. L. Patton have started the road grader at work here.

Mr. Mid Taul, of near Dundee, visited Mr. J. C. Ralph and family Tuesday.

Several from here attended the funeral of Mr. Henry Wright, at Beech Valley, the second Sunday, preached by Rev. Long.

COMPUTING THE COST OF ADVERTISED GOODS

The suggestion is sometimes thoughtlessly made that the buyer has to pay for the cost of advertising.

It would be equally reasonable for a small store to claim because a large store employed more clerks that the patrons of the large store had to pay an extra price because of these additional clerks.

Almost any man by persistent advertising, justly proportioned to his business, can double his trade. If he did so, it is not likely that his rent, taxes, bookkeeping cost, insurance and similar items would be doubled. Very likely they might not be increased one-half.

Every article has to be charged something for these general expenses, which keep running along whether you do much business or not. Consequently if a merchant doubles his business and increases his fixed charges less than a half, the amount to be charged to each article to cover these expenses is much less; hence instead of advertised goods costing the public more, they cost the public less.

Three Tickets in Hancock.

Hancock county, an erstwhile Republican stronghold, is another in which a triangular party battle will be waged for the county offices this fall. The Democrats, Republicans and "Bull Moose" have candidates in the field for the various nominations at the August primary. The "Bull Moose" practically swept the g. o. p. platter last November election, taking with them the old Republican party organization. With the split in the opposition, the Democrats have high hopes of anchoring Hancock county in the Democratic column.—[Louisville Times.

ASSISTANT FOREMAN OF THE WEATHER BUREAU

Reduced in Rank and Salary—Complicity With Moore Is the Charge.

Washington, May 16.—Charles T. Burns, an assistant foreman in the Weather Bureau, suspended at the time of the dismissal of Chief Willis L. Moore, to-day was reduced in rank and salary by Secretary Houston, who declared Burns "guilty of misconduct in the performance of his duties."

Moore was dismissed for "serious irregularities" and misuse of his office, of which it was alleged he had been guilty in his campaign for appointment as Secretary of Agriculture in President Wilson's Cabinet. The case was referred to the Department of Justice for investigation. Burns was charged with complicity.

Prof. Oliver L. Fassig, against whom charges were preferred by Moore, was acquitted of all except one—that of making a false statement regarding an item of expense amounting to \$6.65. No action was taken in his case. Fassig contended Moore made the charges because he refused to support his candidacy for Secretary of Agriculture.

Secretary Houston's investigation of the case disclosed, an official statement says, that on December 27, 1912, Burns recommended that an inspection of Weather Bureau printing plants in various cities was necessary in the interest of economy and efficiency, "whereas the trip was planned by Moore for the primary purpose of promoting his candidacy for appointment as Secretary of Agriculture and not for the promotion of economical or efficient administration of the bureau."

Regarding the single item of \$6.65, Prof. Fassig was found guilty only of lack of accuracy, and was wholly acquitted of having claimed or received any money not actually expended by him.

Master Commissioner's Sale.

Ohio Circuit Court, Kentucky.

Mary Belle Sowders, Plaintiff,

vs.

J. Albert Leach, &c., Defendants.

By virtue of a judgment and order of sale of the Ohio Circuit Court, rendered at the April term, 1913, in the above cause for the sum of \$153.26, with interest at the rate of 6 per cent. per annum from the 21st day of October, 1912, until paid, and the further sum of \$57.73 with like interest from the 9th day of September, 1909, further sums of \$64.50 and \$81.50, F. L. Felix, ex-Commissioner, \$14.15 and E. G. Barrass, Circuit Clerk, \$17 and costs herein, I will offer for sale by public auction at the court house door in Hartford, on Monday, the 9th day of June, 1913, about 1 o'clock p. m., upon a credit of six months, the following described property, to-wit:

The following lots in Beaver Dam, Ohio county, Kentucky, Nos. 4, 5, 6, 7, 8 and 9 in block Q of Sowders' addition to the town of Beaver Dam, Ky., said lots being 50 feet front by 170 feet deep to an alley and fronting on the east side of Main street and being same lots deeded to Ideal Stevens on the 21st day of August, 1905, by Samuel Sowders and which deed is of record in Ohio County Clerk's office, Deed Book 33, page 265, and same property upon which plaintiff, Mary Belle Sowders, has a mortgage lien to secure her debt of \$153.26 and the costs of this action.

I will sell said lots separately and as a whole and will accept the bid bringing the highest and best price. The proceeds of this sale will be applied first to the payment of Plaintiff's debt, interest and cost, and if this property does not bring a sufficient amount to pay the debts of decedent, I will sell the following described property, viz.:

A certain house and lot in Beaver Dam, Ohio county, Kentucky, fronting on the Hartford and Beaver Dam road and on the west side of said road, bounded on the East by the Hartford and Beaver Dam road; on the South by the lot owned by George Boswell; on the West by a street and being same property conveyed to decedent by Samuel Sowders, or sufficient thereof to produce the sums of money ordered to be made. The last named house and lot will be sold subject to the homestead right of T. J. Stevens. The purchaser will be required to execute bond with approved security immediately after sale.

This 20th day of May, 1913.

E. E. BIRKHEAD,

Master Commissioner.

ONCE FAMOUS KENTUCKY JUDGE DIES IN NEW YORK

New York, May 17.—A special dispatch just received from Lake George states that Judge Charles M. Parsons, famous for many years as a feud judge in Pike county, Ky.,

died after a prolonged illness at his home at Caldwell, at the foot of Lake George in this State, Wednesday night. He was born in Virginia, but spent the greater part of his life as judge of Pike county, Ky. Nine years ago he removed to this city and practiced law until ill health forced him to retire last year. He was sixty-six years old.

RESOLUTIONS OF RESPECT

Whereas, It has pleased the Great Sovereign Commander and Ruler of the Universe to call from the Forest of this world to the Golden Forest beyond, our dear brother, Sov. Charles L. Stevens, who died at his home in the Forest of Olaton, Ky., May 9, 1913, forcibly reminding us that in the midst of life we are in death, therefore, be it

Resolved, That in the death of Bro. Sov. Stevens White Oak Camp No. 243, W. O. W., has lost a noble, zealous and ardent worker in the ranks of Woodcraft.

Resolved, That in his death the family lost a kind and affectionate husband and father, and the community in which he lived, a good citizen.

Resolved, That we tender to the bereaved family our heartfelt sympathy in their sad bereavement and commend them to Him who doeth all things well.

Resolved, That these resolutions be spread upon the records of our camp and a copy furnished the family and sent to each of the county papers and the Sovereign Visitor for publication.

Done by order of White Oak Camp No. 243, W. O. W., Olaton, Ky.
